Web developer with a Bachelor of Science (I.T.C) in Information Technology and Computing from Arab Open University 11th September 2013 in Dammam. I have a few years experience web development using PHP(Wordpress, Magento and some frameworks). I'm also familiar with Fronted(HTML,CSS,JS)and I'm always learning more and developing my skills to meet the requirements for my goals and be up to date with new ideas, and I love to make them become reality. I'm good at analyzing and planning big projects and I've worked on many voluntary teams as a leader, and I was responsible of many projects in a startup company.

Experience
